2000 IEEE Intelligent Network Workshop Proceedings

IEEE Network, published bimonthly, offers readers topics of interest to the networking community. As such, IEEE Network provides a focus for highlighting and discussing major computer communications issues and developments.

(PDF) Intelligent techniques in high speed networks

Abstract: The article consists of a PowerPoint presentation on Wireless Intelligent Network Services. The specific areas/topics discussed include: A review of Wireless Intelligent Networks in North America (1997-2002); results based on over 70 interviews conducted; a 2002 forecasting model including platform expenses and WIN-related revenues.

Wireless Mesh Networks," Proceedings of the 5th IEEE Consumer Communications and Networking Conference (CCNC 2008), Las Vegas, NV, January 10-12, 2008, pp. 343-347.

Ramesh R. Rao

16, 2000, new Committee took over. On 14 th & 15 th April 2000, PES-IAS Chapter along with Section organised a workshop on "2000 IEEE IAS workshop on Electrical Safety in Industry", Report on the same is given else where in the Newsletter. During the Workshop Outstanding Chapter Engineer Awards for the year 1999 was presented to Shri Harbans L.

Intelligent Engineering Systems Through Artificial Neural

An intelligent network provides information processing, retrieval and transfer services for an arbitrary number of users in a transparent way. The architecture proposed is based on the demand ...

Knowledge-based generic intelligent network model

Recent booming advancements in networking techniques has led to an evolvement toward future intelligent networks (FINs). This trend takes place under a circumstance in which a great number of devices are connected for specific purposes by a variety of novel techniques, e.g. Internet-of-Things, cloud computing, edge/fog computing, big data, etc.
