CAiSE 2007 was the 19th in the series of International Conferences on Advanced Information Systems Engineering. This year's conference was located in Trondheim and hosted by the Norwegian University of Science and Technology, with the aim of bringing together practitioners and researchers in the field of information systems engineering.

Advanced Information Systems Engineering: 19th

Overview. The Advanced Methods Division leads research to develop state-of-the-art design and systems engineering methodologies. These methods aim to leverage cutting-edge technologies to push the envelope and advance the ability to aid engineering design, analysis, trade-studies, and decision making at all levels, from the system of systems level to the technology and component level.
