The 49ers and the California Gold Rush - ThoughtCo

Madden (2004) presents evidence that, between 1990 and 2002, African American full season NFL coaches were significantly more likely to be fired given their season records than their white counterparts. Malone et. al. (2008) argue that the evidence changes if coaches fired mid-season are added to the analysis.

Reply to: Differences in the Success of NFL Coaches by

Growing the game in Africa has been done on a small, piecemeal fashion. For several years, many NFL stars have returned to Africa to conduct clinics to teach the game in their native lands.

From Africa to the NFL – The Undefeated

San Francisco's African American population has declined in recent decades, from 13.4% of the population in 1970 to 6.1% in 2010. The current percentage of African Americans in San Francisco is similar to that of the state of California; [11] conversely, the city's percentage of Hispanic residents is less than half of that of the state.
